**Western Elementary School
and Public Library & Information Center
Cumberland County Schools**

Size: 100,183 s.f.

Description: Single story, low-slope roof, 800-student capacity (920 core capacity) Dragonfly prototype. The intent is that the project will receive a LEED Platinum rating. Special features include the following: high-performance envelope, geothermal HVAC, low-energy controlled lighting, acoustics that meet ANSI standards, daylighting, rainwater harvesting, photovoltaics on the roof, solar hot water and the technology for monitoring these features, which will be used as a teaching tool. Adjacent to the school will be a public library.

Construction Cost: \$13,881,559.00

Year Completed: 2010
